

360° PIPELINE SCANNER

COLLECT 4K SEWER DATA IN ONE SCAN - ANALYZE BACK IN THE OFFICE

OVER 25 YEARS OF INNOVATING AND IMPROVING 3D OPTICAL SCANNING TECHNOLOGY

UNFOLDED TIMELINE VIEW

Locate defects & jump to sections quickly

360° PERSPECTIVE VIEW

Analyze with complete 360° view,
Pan/tilt virtually, Move forward/back

TWIN 4K CAMERAS

185° Wide-angle lens, 4K Resolution
Capture Images While Moving,
Images Meshed Together for 360° View

MODULAR WHEELS

Dozens of sets available, Swap < 2 minutes,
Same wheels as T76 Camera Tractor

HEAVY BODY FOR INCREASED TRACTION

Solid Brass Body Construction,
Nickel-Cadmium Plating Protects from Corrosion

POWERFUL XENON STROBES

Illuminate up to 48" Diameter Pipe,
No Motion-Blur Even At Highest Speeds

FAMILY-OWNED BUSINESS

PANORAMO® 4K

360° Pipeline Scanner

PANORAMO[®] 4K

360° PIPELINE SCANNER

PANORAMO[®] 4K

PANORAMO[®] 150 4K

- Dual 185° Wide-Angle Digital Cameras
- Capture 4K Resolution Still Images While Moving Through the Pipe
- Images Are Digitally “Stitched” Together
- Creates a Complete 360° View of the Pipeline Interior

ADVANTAGES OF PANORAMO[®]

NEVER MISS AN OBSERVATION

Enhanced Deliverables in 4K Resolution,
Full Pipe Segment Unfolded Views to Quickly Locate Section,
360° Perspective View to Analyze Further

INCREASE PRODUCTIVITY BY 2X

Reduce Operating Costs by up to 30%.
Scan in a Single Pass at Speeds up to 69' (21m) / minute,
Collect Data From the Field, Analyze Later in the Office

EASY TO MAINTAIN

Less Moving Parts than Traditional Pan & Tilt Cameras,
Fewer Components to Breakdown, Easier to Clean
